

**YOUR TRUSTED PARTNER IN
SOURCING, PROCESSING, AND TRADING**

WORLDWIDE WITH A FOCUS ON QUALITY AND SUSTAINABILITY

Freyr International Trade Ltd.

Freyr International Trade Ltd. is a premier exporter of premium African agricultural commodities, dedicated to delivering the continent's finest harvests to the global market. Rooted in the principles of agricultural excellence and prosperity, we serve as a sophisticated, reliable supply chain partner for discerning international buyers and importers.

While we are deeply specialized in sourcing high-scoring specialty and commercial green coffee beans, our diverse portfolio highlights the very best of Africa's rich agricultural output:

Green Coffee Beans

High-altitude, fully traceable specialty lots and consistent regional grades.

Split Ginger

High-pungency, premium-dried ginger sought after for processing and extraction.

Sesame Seeds

High-oil content, meticulously cleaned seeds tailored for international culinary and oil markets.

Hibiscus Calyces

Deep-red, vibrant, and strictly graded calyces ideal for the global tea and beverage industries.

Cashew Nuts:

Premium raw cashew nuts (RCN) with high kernel output ratios.

Shea Nuts

Deep-red, vibrant, and strictly graded calyces ideal for the global tea and beverage industries.

Green Coffee Beans

Exceptional coffee begins long before it reaches the cup. Sourced from carefully selected growers, our coffee beans are chosen for their distinctive aroma, rich flavor profile, and consistent quality. Each shipment is professionally sorted, graded, and prepared to preserve freshness throughout international transit, ensuring buyers receive export-ready products that meet stringent global standards.

With extensive expertise in agricultural exports, we bridge local producers with international coffee roasters, distributors, and specialty markets through dependable supply chains and timely global delivery.

Split Ginger

Renowned for its bold aroma, intense flavor, and natural medicinal properties, Nigerian ginger continues to command strong demand across international markets. Whether supplied as freshly harvested ginger or carefully processed dried ginger, every shipment is handled with strict attention to cleanliness, moisture control, and product integrity to preserve its premium quality from farm to destination.

We combine rigorous quality assurance with efficient export logistics to serve food manufacturers, spice processors, pharmaceutical companies, and wholesalers worldwide with ginger that consistently exceeds international expectations.

Sesame Seeds

From the fertile agricultural regions of Nigeria, premium sesame seeds are carefully sourced from trusted farming communities and processed to meet the expectations of the global market. Every batch undergoes meticulous cleaning, grading, and quality inspection to ensure exceptional purity, uniformity, and compliance with international export standards.

At Freyr International Trade, excellence extends beyond the product itself we deliver a seamless export experience backed by reliable logistics, transparent sourcing, and a commitment to supplying food manufacturers, processors, and commodity buyers across Europe, Asia, the Middle East, and beyond with sesame seeds they can trust.

Hibiscus Flower

Known for their vibrant crimson color, refreshing tartness, and impressive health benefits, Nigerian hibiscus flowers remain one of the country's most sought-after agricultural exports. Carefully harvested at peak maturity, naturally dried under controlled conditions, and expertly sorted, our hibiscus retains its rich flavor, aroma, and nutritional value.

Through efficient export operations and uncompromising quality control, Freyr International Trade connects international beverage manufacturers, herbal tea producers, and food processing companies with premium-grade hibiscus that consistently meets global quality specifications.

Cashew Nuts

Celebrated for their rich, buttery flavor, exceptional nutritional value, and wide range of industrial applications, Nigerian cashew nuts are among the country's most sought-after agricultural exports. Sourced from carefully selected plantations, each batch is expertly sorted, graded, and processed under stringent quality standards to preserve freshness, taste, and kernel integrity.

Through an unwavering commitment to quality assurance, ethical sourcing, and efficient global logistics, We supply premium export-grade cashew nuts to food manufacturers, snack producers, distributors, and international commodity buyers, delivering products that consistently meet the highest global standards while fostering long-term trade partnerships built on reliability and trust.

Shea Nuts

Harvested from naturally growing shea trees across West Africa, shea nuts represent one of the region's most valuable agricultural resources, forming the foundation for premium shea butter used in cosmetic, pharmaceutical, and food industries worldwide. Carefully selected, cleaned, and prepared for export, each consignment reflects a commitment to quality, sustainability, and responsible sourcing.

By working closely with local communities and maintaining internationally compliant export procedures, Freyr International Trade delivers premium shea nuts to global manufacturers seeking reliable raw materials supported by integrity, consistency, and efficient international trade solutions
